Attempt : 1 Total Mark : 10 Marks Obtained : 10

Section 1: Coding

#### 1. Problem Statement

Ravi is developing a student registration system for a college. To efficiently store and manage the student IDs, he decides to implement a doubly linked list where each node represents a student's ID.

In this system, each student's ID is stored sequentially, and the system needs to display all registered student IDs in the order they were entered.

Implement a program that creates a doubly linked list, inserts student IDs, and displays them in the same order.

## **Input Format**

The first line contains an integer N the number of student IDs.

The second line contains N space-separated integers representing the student IDs.

### **Output Format**

The output should display the single line containing N space-separated integers representing the student IDs stored in the doubly linked list.

Refer to the sample output for formatting specifications.

```
Sample Test Case
   Input: 5
   10 20 30 40 50
Output: 10 20 30 40 50
   Answer
   // You are using GCC
   #include <stdio.h>
   #include <stdlib.h>
   struct node {
     int studentID;
     struct node* prev;
     struct node* next:
   struct node* head = NULI
   void insertStudentID(int id) {
     struct node* newNode = (struct node*)malloc(sizeof(struct node));
     newNode->studentID = id;
     newNode->prev = NULL;
     newNode->next = NULL:
     if (head == NULL) {
        head = newNode:
     } else {
      struct node* temp = head;
        while (temp->next != NULL) {
          temp = temp->next;
```

```
240/0/5/12
                                                   240701512
        temp->next = newNode;
        newNode->prev = temp;
    void displayStudentIDs() {
      struct node* temp = head;
      while (temp != NULL) {
        printf("%d ", temp->studentID);
        temp = temp->next;
      }
      printf("\n");
                         240101512
int main() {
      int N, studentID;
      scanf("%d", &N);
      for (int i = 0; i < N; ++i) {
        scanf("%d", &studentID);
        insertStudentID(studentID);
      }
      displayStudentIDs();
      return 0;
                                                   240701512
Status : Correct
                                                                      Marks: 10/10
